Fossil Fighters™ Frontier (Nintendo)	Nintendo 3DS (Card/Download)	Nintendo eShop from 29/05/2015	€39.99 / CHF 51.90	
<i>Game Description: Dig into Fossil Fighters Frontier! In this exciting RPG, play as a young Fossil Warden protecting precious Fossil Parks across the world from a cruel villain, Dr. Baron von Blackraven, who is intent on ruling the world using the power of Vivosaur - extra powerful and extra colourful dinosaurs! Awaiting you in-game will be a huge 3D world with hidden riches to discover while travelling around in your customisable Bone Buggy vehicle. Track down precious fossils, excavate them, before watching them revive into Vivosaur. You can then send these Vivosaur - of which there are over 80 to discover in-game - into turn-based battles to take on your enemies.</i>				
High Strangeness (Midnight City)	Wii U (Download)	Nintendo eShop from 28/05/2015	€9.99 / CHF 14.00	
<i>Game Description: High Strangeness is a hybrid of 8 and 16 bit games - a 12 bit adventure. The inspiration of the game comes from many Action-Adventure and RPG games of yesteryear. The game's core ability is to switch between 8 and 16 bit worlds and the player uses their generational differences to solve puzzles and explore the universe. Throughout the game your pixel art perspective of the world will be infused with visions of watercolour illustrations that shed some light on your mysterious surroundings. The chiptune soundtrack by Dino Lionetti and Rich Vreeland backs up the aesthetic of the world and sets the mood for strange happenings.</i>				
SDK Paint Demo (HULLBREACH STUDIOS)	Wii U (Demo)	Nintendo eShop from 28/05/2015	Free	
<i>Game Description: SDK Paint takes a unique approach to Wii U artwork creation, by stacking five layers onto the artwork canvas. Each layer can independently be utilized to create the next masterpiece. By combining the artistic modes (Normal Paint, Noisy Paint, Smudge, and Spraycan), the numerous filters (Blur, Negate, Lighten, Darken, etc.), the shaders (Pattern Fill, Flood Fill, Texture, etc.), and the tools (Gridlines, Stencils, Drag, Swap, etc.), the possibilities of what the stylus can paint onto the canvas are endless. Don't worry if you make a mistake, ten levels</i>				

of Undo will help with that! If the artwork needs fine precision then just zoom the canvas. A large colour palette, with dragging support, lets artists easily choose exactly the colour desired, and a Dropper tool makes identifying previous colours a simple task. The features don't end with just painting, either. How does the artwork look on a wall? Explore the retro 3D Galleries to see all 18 paintings framed on the walls. Is the artwork ready show off? Jump into the Sharing area and prepare it for either 2D or anaglyph 3D (special glasses required**) posting of screenshots to Miiverse™. Show the world your inner artist.

**SDK Paint supports 3D viewing by use of anaglyph 3D glasses. While, these are not required, they do enhance the experience.
